

Monthly Investment Report

As of April 30, 2019

This report presents the City's investment portfolio as of April 30, 2019. It includes all investments managed by the City on its own behalf. The report provides information on the institution, investment type, purchase and maturity date, value, yield for each security. As of April 30, 2019, the investment portfolio complied with all State laws.

Current Portfolio Summary. Short-term excess cash is currently invested primarily in the Washington State LGIP and in the Clark County Investment Pool. Both investment pools are very high-quality investments in terms of safety and liquidity. The Clark County Investment Pool is longer in average duration than the Washington State Local Government Investment Pool and therefore the current yield is slightly lower on the Clark County Investment Pool than the LGIP. The City has shifted most of its investments in the Clark County Pool to the LGIP. This shift is to not only to gain a higher return but Clark County is in the process of implementing a new financial system which the County has disclosed may impact liquidity for the City.

The City also has 90% of its investments longer term in federal agency securities this allocation. The total federal agency securities have an unrealized loss as of April 30, 2019 of \$89,985. An unrealized loss is the amount of funds the City would not receive if the City sold the securities on the reporting date. In other words, the market price on the report date was lower than the price the City purchased the securities at. The City's portfolio has several callable securities. The City's strategy will continue to be laddering maturities while shortening the duration of the portfolio.

The City also has a second investment portfolio for the bond reserve funds for 2015 Water-Sewer Revenue Bond. These proceeds were invested in the Clark County Pool and in federal agency securities. This portfolio has an unrealized loss of \$20,314. These securities have longer maturities due to the long-term nature of the reserve fund of twenty years.

The City issued limited general obligation bonds in 2018 and has invested the some of the proceeds in the LGIP with the remaining portion laddered with federal agency securities in 2019. This portfolio has an unrealized gain as of April 30, 2019 of \$19,065. Most of the bond proceeds will be spent within the first twelve months.

The City issued revenue bonds for sewer projects in 2015 and invested the proceeds in a fourth portfolio. These proceeds are invested in the LGIP. The construction project is anticipated to be complete in the Summer of 2019.

In March, the City issued revenue bonds for the City's water infrastructure projects and invested the proceeds in a fifth portfolio. These proceeds in the LGIP and laddered agency securities. At the end of April, this portfolio had unrealized gain of \$4,317.

The following is a summary of the City's investments based on recorded value as of April 30, 2019 compared with the prior month:

Investments of 2018 Rev Bond Proceeds	\$10,573,554	\$10,557,640

Summary of Activity for the Month and Future Liquidity In month of April, revenues exceeded expenditures with seasonal property tax receipts. The City has a Line of Credit which assists the City in enhancing its liquidity during very large capital project seasons. With the Line of Credit, staff can better manage cash flow needs of the City. In addition, we continue to believe the portfolio contains enough liquidity to meet the next six months of expected expenditures by the City.
