

We are in the process of creating a planning document that will help guide our services for the next few years. Describing your vision for Camas will ultimately help us to create a better Library.

1. When you think of an ideal community you'd like to live in, what are some adjectives that come to mind?
2. What concerns do you have about our community?
3. Taking into consideration the first two questions, what are some things that need to change for Camas to become your ideal community?
4. What do you see as the Library's role in your vision of community?
5. In general, what are some things the Library can do to improve?
6. Is there anything else you'd like us to know as we plan for the future?
